

# SG2M025075BJ

TriQSiC™ 750V Silicon Carbide Power MOSFET G2 ( N Channel Enhancement )

## Features

- High speed switching
- Very low switching losses
- Fully controllable dv/dt
- High blocking voltage with low on-resistance
- Fast intrinsic diode with low reverse recovery (Qrr)
- Temperature independent turn-off switching losses
- Halogen free, RoHS compliant

## Benefits

- Cooling effort reduction
- Efficiency improvement
- Reduced cooling requirements
- Increased power density
- Increased system switching frequency

| Part number  | Die size (W x L) mm |
|--------------|---------------------|
| SG2M025075BJ | 3.390*4.770         |

## Applications

- On-board charger/PFC
- EV battery chargers
- Booster/DC-DC converter
- Switch mode power supplies

Table 1 Key performance and package parameters

| Type         | V <sub>DS</sub> | I <sub>DS</sub><br>(T <sub>C</sub> =25°C,<br>R <sub>th(j-c),max</sub> ≤0.44°C/W) | R <sub>Ds(on)</sub> , typ<br>(V <sub>GS</sub> = 18V, I <sub>D</sub> = 34A,<br>T <sub>J</sub> = 25°C) | T <sub>J,max</sub> |
|--------------|-----------------|--|--|--------------------|
| SG2M025075BJ | 750V            | 92A  | 25mΩ   | 175 °C             |

## 4、Mechanical parameters

### 4.1 Dimensions and metallization

| Parameter                            | Typical value | Unit | Metallization |
|--------------------------------------|---------------|------|---------------|
| Die size (W x L)                     | 3.390*4.770   | mm   |               |
| Gate pad size (W x L)                | 0.800*0.800   | mm   |               |
| Die thickness                        | 180           | μm   |               |
| Top side (source gate) metallization | 4.3           | μm   | Al            |
| Back side (drain) metallization      | 1             | μm   | Ag            |

### 4.2 Layout

| Symbol | Dimension / mm |
|--------|----------------|
| B      | 4.770          |
| b1     | 4.130          |
| b2     | 3.180          |
| b3     | 0.800          |
| A      | 3.390          |
| a1     | 0.800          |
| a2     | 0.825          |
| a3     | 1.300          |

## Attention

---

### 1. RoHS compliance

The levels of RoHS restricted materials in this product are below the maximum concentration values (also referred to as the threshold limits) permitted for such substances, or are used in an exempted application, in accordance with EU Directive 2011/65/ EC (RoHS2), as implemented January 2, 2013.

### 2. REACH compliance

REACH substances of high concern (SVHCs) information is available for this product. Since the European Chemical Agency (ECHA) has published notice of their intent to frequently revise the SVHC listing for the foreseeable future, please contact a Sichain representative to insure you get the most up-to-date REACH SVHC Declaration. REACH banned substance information (REACH Article 67) is also available upon request.

3. With respect to information regarding the application of the product, Sichain hereby disclaims any and all warranties and liabilities of any kind, including without limitation warranties of non-infringement of intellectual property rights of any third party.

4. Any information given in this documents subject to customer's compliance with its obligations and any applicable legal requirements, norms and standards concerning any use of the product of Sichain in any customer's applications.

5. Specifications of any and all products described or contained herein stipulate the performance, characteristics, and functions of the described products in the independent state, and are not guarantees of the performance, characteristics, and functions of the described products as mounted in the customer's products or equipment.

6. Due to technical requirements products may contain dangerous substances. For information on the types in question please contact Sichain office.

# SG2M025075BJ

7. Except as otherwise explicitly approved by Sichain in a written document signed by authorized representatives of Sichain, Sichain's products may not be used in any applications where a failure of the product or any consequences of the use thereof can reasonably be expected to result in personal injury.
  
8. For use of our products in applications requiring a high degree of reliability (as exemplified below), please contact and consult with a Sichain representatives, for example but not limited to: transportation equipment, primary communication equipment, traffic lights, fire/crime prevention, safety equipment, medical systems, and power transmission systems.
